Caroline Leger

I'm a Senior front end developer with an eye for design and over 10 years of professional experience.

WORK EXPERIENCE

Website lead - Mable

Oct 2023 - Present

Tasks:

Move from WordPress to Headless CMS:

- Evaluated the feasibility of transitioning Mable's WordPress-based websites to a headless CMS for better scalability and modern technology adoption.
- Initiated the migration of four WordPress websites to a headless architecture using Contentful and Next.js, and extended our shared reusable component library for consistent UI and easier maintenance.

Build Signup Microservice & Component Library:

- Developed a dedicated microservice in **React** to improve the signup process for both social workers and clients, ensuring smooth integration with Mable's Angular-based application.
- Created and maintained a shared component library using **React** and **Storybook**, achieving over 80% code coverage with rigorous **Jest** testing.
- Deployed the microservice to **AWS** with automated deployment pipelines set up using **GitHub Actions** for reliability and efficiency.

Clean and Maintain WordPress Websites:

- Streamlined and optimized WordPress environments by cleaning themes, removing unnecessary plugins, and building **custom reusable widgets** with **Elementor**.
- Introduced **Cypress** for testing workflows, ensuring robust and consistent functionality across WordPress sites.
- Established version control for WordPress themes and implemented automated deployment pipelines via **GitHub Actions**, enhancing collaboration and reducing deployment errors.

Other Tools Used:
Storyblok, React, Jest, Storybook, Chromatic, AWS, GitHub Actions, Elementor, Cypress.

Senior Frontend Developer - Miroma Project Factory

Nov 2022 - July 2023

Tasks:

Develop and maintain websites with ReactJS:
- Built reusable components for a large streaming/NFT platform, ensuring scalability and maintainability.
- Created a high-performing ReactJS e-commerce site using Shopify's

SKILLS

ReactJS: Very good knowledge
VueJS: Good knowledge
Angular: Good knowledge
Typescript: Good knowledge

WordPress: Good knowledge
Headless CMS: Contentful Storyblok, Hydrogen: Good knowledge

HTML/CSS/SASS: Expert
JavaScript: Expert

Other tools:

Jest, Cypress, REST APIs connection, Emotion, Gsap, Tailwind, Material UI, Ant Design, OpenLayers, Mapbox, Recharts, Storybook, Salesforce, Litmus, Squarespace, Accessibility checks (Lighthouse, Wave), Basic design skills (Adobe, Figma Sketch), Basic video editing skills (Vegas, Da Vinci, Premiere)

ADDITIONAL INFORMATION

LANGUAGES:
French: Native
English: Fluent
Spanish: Basic

headless CMS (Hydrogen), implementing custom features like dynamic product configuration and seamless integration with Shopify APIs.

Build a web application for the NSW Department of Education using VueJS:
- Rebuilt a critical Census tool for NSW schools using Vue 2, with a focus on modularity and reusability.
- Designed and implemented complex data tables, forms, and interactive charts, connecting to multiple REST APIs and managing state efficiently with Vuex.

Other tools used:
Emotion, Hydrogen (Shopify), GSAP, Vuetify, Slick Slider, Material UI (MUI).

Frontend Developer - Intelematics

Oct 2020 - Nov 2022

Tasks:
Develop and maintain ReactJS applications:
- Built a traffic insights application from the ground up, featuring dynamic data visualizations using Mapbox and OpenLayers. Integrated data from Power BI via custom APIs for seamless reporting.

Create and maintain VueJS websites:
- Developed a VueJS site adhering to strict design guidelines, focusing on simplicity and maintainability.

Build and update Angular applications:
- Created an app similar to Carsales.com.au, allowing users to explore vehicle data with advanced filtering options.
- Worked on Angular apps with interactive maps, improving user workflows and enhancing data visualizations.
- Made minor updates to other Angular apps as needed.

Maintain and update a WordPress website:
- Handled front-end updates and basic PHP tasks to keep the site modern and functional.

Other tools used:
TypeScript, OpenLayers, Mapbox, Sass, Material UI (MUI), Ant Design.

Frontend Developer Contractor

Mar 2019 - Dec 2020

Worked for: Nintex, Intelematics, DDB, AKQA, Australia Post, Myer (through Clemenger), MYOB, Traffic

Tasks:

Develop and maintain VueJS web apps:

- Built small-scale web applications using VueJS and Sass, incorporating engaging animations for dynamic user experiences.

Maintain and enhance Nintex Analytics applications:

- Worked on data analytics and visualization apps using Angular 6+,

HOBBIES

TypeScript, ReactJS, RechartJS, Sass, and Storybook. Delivered efficient solutions for presenting complex datasets interactively.

Build microsites for the Great Aussie Coin Hunt:

- Created an interactive microsite for Australia Post using HTML, Sass, JavaScript, and jQuery. Integrated numerous animations to ensure a captivating user journey.

Manage and update WordPress websites:

- Maintained WordPress websites, leveraging HTML, Sass, JavaScript, jQuery, and ACF. Performed basic PHP tasks and updates for map-oriented Angular apps.

Create animated banners:

- Designed visually compelling animated banners using HTML, CSS, jQuery, and GSAP to elevate brand presence.

Build and test emails:

- Developed responsive email templates using HTML/CSS, optimized for platforms like Salesforce and validated with Email on Acid/Litmus for cross-client compatibility.

Frontend developer - Blackmagic design

Sep 2016 - Mar 2019

Tasks: Built interactive prototypes to test various UX concepts, focusing on reimagining the **DaVinci Resolve** video editing interface and experimenting with new interactions and workflows for professional filmmakers.

Tools Used: ReactJS, Redux, AngularJS, JavaScript, jQuery, Sketch.

Web Developer & Digital Designer Contractor

Feb 2016 - Sep 2016

Worked as a freelancer for: The University of Melbourne, AJF Partnerships, BWM Dentsu, FentonStephens

Tasks: Created landing pages, banners (animated or static), emails, web design etc.

Tools used: Html/css, Sass, Javascript, JQuery, Gsap, Sketch.

Web developer & Digital Designer Contractor (UK)

Jan 2015 - Jan 2016

Worked as a freelancer for several companies, including: Net-a-Porter, Cartoon Network, Our Price...

Tasks: Built online magazines, emails, landing pages, wordpress websites (design + building), animated banners

Tools used: Html5, css3, javascript, jquery, Adobe suite.

Web developer & Designer - TPG (UK)

Sep 2013 - Dec 2014

Tasks: Creation of digital and print documents (websites, emails, landing pages,

brochures, flyers, ads...), train and manage junior designers.
